## Product fiche pursuant to Delegated Regulation (EU) no. 392/2012

Model  NT M11 9X3E UK  Rated capacity in kg of cotton laundry for the standard cotton programme at full load  Air vented, condenser or gas fired  Heat pump  Electric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh per year, based on 150 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh gas per year, based on 150 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas per year, based on 150 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption of the standard cotton programme at full and partial load. And the consumption of the standard cotton programme at full and partial load and the consumption of the standard cotton programme at full and partial load in the standard cotton programme at full and partial load in the standard cotton programme at full and partial load is the standard drying programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme it is suitable for drying normal wet cotton laundry and that it is the most efficient programme in the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme of the standard cotton programme at full and partial load.  If the appliance is a condenser tumble	Tumble Dryers	Answer	Units
Rated capacity in kg of cotton laundry for the standard cotton programme at full load  Air vented, condenser or gas fired  Heat pump  Energy efficiency class  A+++  Electric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh per year, based on 150 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (If applicable)  Energy consumption of the standard cotton programme at full and partial load and the consumption of the tendency of the standard cotton programme at full and partial load and to the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying pormal we cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (Tt) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full and partial load (T dry ) and the programme time of the standard cotton programme at full and partial load (T dry ) and the programme time of the standard cotton programme at full and partial load.  If the appliance is a condenser tumble dryer, the condensation efficiency	•		Offics
Rated capacity in kg of cotton laundry for the standard cotton programme at full load  Air vented, condenser or gas fired  Heat pump  Energy efficiency class  A+++  Electric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh 194  Electric Only: The weighted Annual Energy Consumption - "Energy consumption or "X" kWh 204  per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh 204  Gas per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (if applicable)  Energy consumption of the standard cotton programme at full and partial load  The duration of the left-on mode if the appliance is sequipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme in terms of energy consumption for cotton  The weighted programme in terms of energy consumption for cotton  The weighted programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme	Supplier 5 Name of Trade Mark	etpeint	
Air vented, condenser or gas fired  Energy efficiency class  A+++  Electric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (If applicable)  Energy consumption of the estandard cotton programme at full and partial load  1.69 / 0.81  kWh  Power consumption of the eff-mode (P o) and on the left-on mode (P I) for the standard cotton programme at full load  The duration of the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme at full (T of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry 1/2) in minutes to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry 1/2) in minutes to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry 1/2) in minutes to the nearest minute as well as the programme time of the standard cotton programme at full had partial load in minutes a	Model	NT M11 9X3E UK	
Electric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (if applicable)  Energy consumption of the standard cotton programme at full and partial load  1.69 / 0.81  kWh  Power consumption of the off-mode (P o) and on the left-on mode (P i) for the standard cotton programme at full load  The duration of the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton most efficient programme in terms of energy consumption for cotton appraamme in terms of energy consumption for cotton for standard cotton programme at full load (T dry 1/2) in minutes to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry 1/2) in minutes to the nearest minute as an energy consumption of cotton destination of the standard cotton programme at full load (T dry 1/2) in minutes to the nearest minute as an energy consumption of cotton destination of the standard cotton programme at full load (T dry 1/2) in minutes to the nearest minute as an energy consumption of the energy consumption of the energy co	Rated capacity in kg of cotton laundry for the standard cotton programme at full load	9	kg
Electric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption" "KWh Gas per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (If applicable)  Energy consumption of the standard cotton programme at full and partial load  The duration of the left-on mode (P o) and on the left-on mode (P i) for the standard cotton programme at full load  The duration of the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class - "Condensation efficiency class X on a scale from G (least efficient) to A (most efficient)"  If the appliance is a condenser tumble dryer, the condensation efficiency class - "Condensation efficiency class X on a scale from G (least efficient) to A (most efficient)"  If the appliance is a condenser tumble dryer, the condensation efficiency class	Air vented, condenser or gas fired	Heat pump	
per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (if applicable)  Energy consumption of the standard cotton programme at full and partial load  Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard cotton programme at full load  The duration of the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is usitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry 1/2) in minutes to the nearest minute of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute of the standard cotton programme at full load (T dry 1/2) in minutes to the nearest minute of the standard cotton programme at Gleast efficient) to A (most effcient)  If the appliance is a condenser tumble dryer, the condensation efficiency class - "Condensation efficiency class - "Condensation efficiency class - A on a scale from G (least efficient) to A (most effcient)  If the appliance is a condenser tumble dryer, the average condensation efficiency class - A "Stan	Energy efficiency class	A+++	
Gas per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (if applicable)  Energy consumption of the standard cotton programme at full and partial load  1.69 / 0.81  KWh  Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard cotton programme at full load  The duration of the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) 1/2) in minutes to the nearest minute as well as the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry 1/2) in minutes to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry 1/2) in minutes to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry 1/2) in minutes to the nearest minute as well as the programme at full and partial load (T dry 1/2) in minutes to the nearest minute as well as the programme at full and partial load (T dry 1/2) in minutes of the standard cotton programme at full and partial load (T dry 1/2) in minutes and the programme at full and partial load (T dry 1/2) in minutes and the programme at full and partial load (	<b>Electric Only</b> : The weighted Annual Energy Consumption - "Energy consumption "X" kWh per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"	194	kWh
EU Ecolabel (If applicable)  Energy consumption of the standard cotton programme at full and partial load  1.69 / 0.81  kWh  Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard cotton programme at full load  The duration of the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class - "Condensation efficiency class A on a scale from G (least efficient) to A (most effcient)"  If the appliance is a condenser tumble dryer, the average condensation efficiency class - "standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load  A dB(A)	<b>Gas Only</b> : The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"		kWh
Energy consumption of the standard cotton programme at full and partial load  1.69 / 0.81  1.69	Automatic tumble dryer or Non automatic tumble dryer	Automatic	
Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard cotton programme at full load  The duration of the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class - "Condensation efficiency class X on a scale from G (least efficient) to A (most effcient)"  If the appliance is a condenser tumble dryer, the average condensation efficiency class - "standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load  A  dB(A)	EU Ecolabel (If applicable)		
The duration of the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class - "Condensation efficiency class X on a scale from G (least efficient) to A (most effcient)"  If the appliance is a condenser tumble dryer, the average condensation efficiency class - "standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load  A dB(A)	Energy consumption of the standard cotton programme at full and partial load	1.69 / 0.81	kWh
Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (Tt) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class - "Condensation efficiency class X on a scale from G (least efficient) to A (most effcient)"  If the appliance is a condenser tumble dryer, the average condensation efficiency class - "standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load  4 dB(A)	Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard cotton programme at full load	1/0.5	W
standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class - "Condensation efficiency class X on a scale from G (least efficient) to A (most effcient)"  If the appliance is a condenser tumble dryer, the average condensation efficiency class - "standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load  4  MB(A)	The duration of the left-on mode if the appliance is equipped with a power management system		minutes
partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -  "Condensation efficiency class X on a scale from G (least efficient) to A (most effcient)"  If the appliance is a condenser tumble dryer, the average condensation efficiency class -  "standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load  dB(A)	Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton	Yes	
"Condensation efficiency class X on a scale from G (least efficient) to A (most effcient)"  If the appliance is a condenser tumble dryer, the average condensation efficiency class - "standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load  64  dB(A)	The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute	215 mins & 110 mins	minutes
"standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load  64  dB(A)		А	
	If the appliance is a condenser tumble dryer, the average condensation efficiency class - "standard cotton programme at full and partial load"	Α	
Built-In Freestanding	Noise Level (dB(A)) for the standard cotton programme at full load	64	dB(A)
