

Product fiche pursuant to Delegated Regulation (EU) no. 392/2012

Tumble Dryers	Answer	Units
Supplier's Name or Trade Mark	Miele	
Model	TCA220WP	
Rated capacity in kg of cotton laundry for the standard cotton programme at full load	7	kg
Air vented, condenser or gas fired	Heat Pump	
Energy efficiency class	A++	
<b>Electric Only:</b> The weighted Annual Energy Consumption - "Energy consumption "X" kWh per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"	208	kWh
<b>Gas Only:</b> The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"		kWh
Automatic tumble dryer or Non automatic tumble dryer	Automatic	
EU Ecolabel (if applicable)		
Energy consumption of the standard cotton programme at full and partial load	1.7/0.96	kWh
Power consumption of the off-mode (P o) and on the left-on mode (P l) for the standard cotton programme at full load	0.4/0.4	W
The duration of the left-on mode if the appliance is equipped with a power management system	15	minutes
Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton	cottons with arrow This programme is suitable for drying normal wet cotton laundry and is the most efficient programme in terms of energy consumption for cotton.	
The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute	121/155/95	minutes
If the appliance is a condenser tumble dryer, the condensation efficiency class - "Condensation efficiency class X on a scale from G (least efficient) to A (most efficient)"	A	
If the appliance is a condenser tumble dryer, the average condensation efficiency class - "standard cotton programme at full and partial load"	95%	
Noise Level (dB(A)) for the standard cotton programme at full load	66	dB(A)
Built-in	N	

Miele		
Model name/identifier		TCA220WP Active
Rated capacity <sup>1</sup>	kg	7,0
Type of tumble drier	Air-vented / condenser	- / •
Energy efficiency class		
A+++ (most efficient) to D (least efficient)		A++
Weighted annual energy consumption (AE <sub>W</sub> ) <sup>2</sup>	kWh/year	208
Tumble drier	Automatic / non-automatic	• / -
Energy consumption of the standard cotton programme		
Energy consumption at full load	kWh	1,70
Energy consumption at partial load	kWh	0,96
Weighted power consumption in off-mode (P <sub>o</sub> )	W	0,40
Weighted power consumption in the left-on mode (P)	W	0,40
Duration of the 'left-on' mode (T) <sup>3</sup>	min	15
Standard programme to which the information in the label and the fiche relates <sup>4</sup>		Cottons with arrow
Programme time of the 'standard cotton programme'		
Weighted programme time	min	121
Programme time at full load	min	155
Programme time at partial load	min	95
Condensation efficiency class <sup>5</sup>		
A (most efficient) to G (least efficient)		A
Weighted condensation efficiency for the 'standard cotton programme' at full and partial load	%	94
Average condensation efficiency of the 'standard cotton programme' at full load	%	95
Average condensation efficiency of the 'standard cotton programme' at partial load	%	94
Sound power level (L <sub>WA</sub> ) <sup>6</sup>	dB(A) re 1 pW	66
Built-in		-

• Yes, standard feature

<sup>1</sup> In kg of cotton laundry for the standard cotton programme at full load.

<sup>2</sup> based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used.

<sup>3</sup> If the household tumble drier is equipped with a power management system.

<sup>4</sup> This programme is suitable for drying normal wet cotton laundry and is the most efficient programme in terms of energy consumption for cotton.

<sup>5</sup> If the household tumble drier is a condenser tumble drier.

<sup>6</sup> For the standard cotton programme at full load.
