Promotion overview

Miele - 125 Year Campaign

Terms & conditions

Miele consumers are given the chance to win prizes by purchasing at least one Miele product. Evidence of purchase is submitted via a promotion website. The consumer gains one entry into a monthly and grand prize draw based on the category of product(s) they have purchased.

Chance to win allocation

When a consumer submits an entry via the promotion website they list each product they have purchased by selecting the product category and entering the product serial number. Each product category has a predetermined 'points' value. The consumer gains one chance to win in the current monthly draw and one chance to win in the grand prize draw for each product category point relating to their purchase(s).

Monthly Draw

Each website entry form submission creates an Entry record. Then, for each product category point allocated, a DrawEntry record is created for the Entry. A DrawEntry record represents one chance to win in the monthly draw, a bit like a raffle ticket.

One monthly winner is selected at random from the pool of DrawEntries therefore guaranteeing a prize win. Their serial number and other purchase data is validated before they are contacted. If their purchase is invalid their entry is rejected and the draw process runs again until an eligible winner is found.

Grand Prize Draw

Each website entry form submission creates an Entry record. Then, for each product category point allocated, a DrawEntry record is created for the Entry. A DrawEntry record represents one chance to win in the final grand prize draw, a bit like a raffle ticket. The provisional winning serial number and other purchase data is validated before the winner is contacted. If their purchase is invalid their entry is rejected and the draw process runs again until an eligible grand prize winner is found.
