Your installation service

Installation services are provided on behalf of Currys by OrderWork Ltd (Registered No: 05662167), of Montpelier Chambers, 61-63 High Street South, Dunstable, Bedfordshire LU6 3SF, who is a third-party service provider.

Please check the information provided to you by email by OrderWork to confirm what is included in your installation.

An adult aged 18 or over must be present for your installation to go ahead.

The product delivery will be fulfilled by Currys, OrderWork will not be bringing the product on the day. For product delivery related questions, please contact Currys on 0344 561 0000.

If your product has not arrived on time, please contact OrderWork who will help rescheduled the installation date to the next convenient time.

On the day of the installation, to enable your installation to be successfully completed you will need to:

- Provide sufficient access to enable OrderWork’s engineers to manoeuvre safely;
- Make sure that any children and pets are in a safe place and not in the area the OrderWork engineers are working in;
- Ensure that the installation area is clear of any obstructions;
- Make all parts, fittings, devices, cables and/or accessories required for the installation readily available;
- If required for the installation, be able to provide the WiFi network name and password details;
- Have all of the products to be installed with you before the engineer arrives.

If additional parts, fittings, devices, cables and/or accessories are required (for example, those you have provided to be used for the installation services are incompatible or

incomplete), or there are additional costs to perform the installation services that are identified by OrderWork on-site as a result of certain installation conditions and circumstances (for example, power is not located within the required proximity) OrderWork will provide an on-site quote before the installation commences. If you agree with the quote, you will be asked you to pay an additional fee and OrderWork will take payment securely over the phone prior to your installation taking place. No cash transactions are allowed onsite. If you choose not to proceed with the on-site quote your installation will not be able to proceed, please contact Currys on 0344 561 0000 for a refund of your original installation payment.

Failure to make the property where the installation services are being performed available or give sufficient access to provide the installation services can result in OrderWork being unable to complete the installation services.

Important Information

- Should a change of installation date be required, at least 24hrs notice is required, OrderWork cannot however guarantee a next day installation. Dates for availability will be provided. As a highly valued customer, OrderWork will try our best to accommodate your request, but this may not always be possible.
- Removal and disposal of packaging is not included in the installation services.
- Any painting and finishing required is to be completed by the customer and not included in the scope of the installation services.
- When fixing an item to your house wall, pre-existing problems with a wall are sometimes encountered. For example;

1. When drilling through a wall, pre-existing cracks in brickwork can cause a brick to crack further, or “brick to blow” at the entry or exit point. Similar can happen when fixing to brick.
2. When putting fixings on a plastered wall, where the plaster is already poorly bonded to the wall (“blown plaster”) cracking can occur around the fixing.
3. When embedding cables into a plastered wall, where the plaster is already poorly bonded to the wall (“blown plaster”), the plaster surrounding the channel may be further loosened or crack.
4. Where OrderWork are aware of pre-existing problems before starting the work, OrderWork will ask for a disclaimer to acknowledging the problem to be signed by you.
 - Regardless of any disclaimer signed, neither Currys or OrderWork are responsible for issues caused by pre-existing conditions.
 - If you are a tenant you should get permission from your landlord for the installation to be completed.
