Steam Gift Cards and Wallet Codes are an easy way to put money into your own Steam Wallet or give the perfect gift of games to your friend or family member.

Steam Gift Cards and Wallet Codes work just like gift certificates, which can be redeemed on Steam for the purchase of games, software, and any other item you can purchase on Steam. You can find Steam Gift Cards and Wallet Codes at retail stores across the world in a variety of denominations.

Note: Steam Gift Cards and Wallet Codes will be converted to the currency of your Steam Wallet upon redemption, regardless of where they were purchased.

Frequently asked questions about Wallet Codes

Where can I purchase Steam Gift Cards and Wallet Codes?

Purchase Digital Gift Cards

Find out where to purchase in your region

The Steam codes provided by MSI are primarily in U.S. dollars. However, when a user redeems a code, the system will automatically convert the amount to the currency of the user's country. While we strive to minimize the impact of exchange rate fluctuations, there may be instances where the user receives more than expected due to these variations.

# Error Message

Keys look like the following: AAAAAA-BBBBBB-CCCCC

\*\*\*Steam wallet code contains 15 characters

The screenshot shows the Steam website's 'REDEEM A STEAM GIFT CARD OR WALLET CODE' page. The browser address bar shows 'store.steampowered.com/account/redeemwalletcode'. The page features the Steam logo and navigation links (STORE, COMMUNITY, CHAT, SUPPORT). A search bar and a 'WISHLIST' button are visible. The main content area displays an error message in a yellow box:

There was an error redeeming the entered code.

- The code may be invalid. Please carefully verify the characters as you re-enter the code and double check to see if you've mistyped your key. I, L, and 1 can look alike, as can V and Y, and 0 and O.
- The code may not yet have been activated. It may take several hours after time of purchase before activation is completed by your retailer, please wait and try redeeming the code again in a little while.
- If the currency of the code you are attempting to redeem is different than the region in which you are located, you may not be able to redeem this gift card to your account. If this is the case please return this code to the retailer where it was purchased.
- If the problem persists, please contact [Steam Support](#) for further assistance.

To the right of the error message is a section titled 'Your Steam Account' with links for 'Wallet Balance' and 'See my account details'.

Below the error message, the page prompts the user to 'ENTER YOUR STEAM WALLET CODE TO ADD FUNDS TO YOUR STEAM WALLET'. A text input field contains the code 'AAAAA-BBBBB-CCCCC', and a 'Continue' button is next to it.

A note below the input field states: 'Note: If the gift card you attempt to redeem is not in your currency, it will be automatically converted if redeemable in your region. Not all gift card currencies can be redeemed in all regions.'

At the bottom, there is a section titled 'Steam Gift Cards and Wallet Codes are an easy way to put money into your own Steam Wallet or give the perfect gift of games to your friend or family member.' followed by a paragraph explaining that these codes work like gift certificates and can be redeemed for games, software, and other items on Steam. A final note at the bottom states: 'Note: Steam Gift Cards and Wallet Codes will be converted to the currency of...'.

The bottom right corner of the page features a promotional banner for 'WARGA' with a '€100' value and a '€20' value, along with images of game boxes.
