## Product fiche pursuant to Delegated Regulation (EU) no. 392/2012

Model BM3T3944W  Rated capacity in kg of cotton laundry for the standard cotton programme at full load 9 KG kg  Air vented, condenser or gas fired Heat Pump  Energy efficiency class A++  Electric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (If applicable)			
Model BM313944W  9 KG kg  Air vented, condenser or gas fired Heat Pump  A++  Electric Only: The weighted Annual Energy Consumption "Energy consumption "X" kWh per year, based on 150 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption "Energy consumption "X" kWh per year, based on 150 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption "Energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (if applicable)  Energy consumption of the off-mode (if on partial load partial load partial load in the consumption of the off-mode (if on partial load partial load is the standard cotton programme at full and partial load is the standard drying programme to which the information whin the label is fiche relates, that his programme is usual for drying programme to which the information whin the label is fiche relates, that his programme is usualle for drying normal wet cotton laundry and that it is the most efficient programme time (if to fithe standard cotton programme at full and partial load is the standard drying programme in terms of energy consumption for cotton build and partial load is the standard cotton programme at full and partial load is the standard cotton programme in terms of energy consumption for cotton buildry and that it is the most efficient programme is the ford drying programme is the standard cotton programme at full and partial load:  Average Full load:  Average Partial load:  Averag	Tumble Dryers	Answer	Units
Rated capacity in kg of cotton laundry for the standard cotton programme at full load  Air vented, condenser or gas fired  Energy efficiency class  Att-  Electric Only: The weighted Annual Energy Consumption "Energy consumption "X" kWh per year, based on 18d drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used.  Gas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh has per year, based on 18d drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used.  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (if applicable)  Energy consumption of the off-mode (if 0) and on the left-on mode (if 1) for the standard cotton programme at full load  The duration of the left-on mode if the appliance is equipped with a power management system  attraction that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label is fiche relates, that this programme is usticible for drying normal west cotton laundry and that it is the most efficient programme is usticible for drying normal west cotton laundry and that it is the most efficient programme time (if t) of the standard cotton programme at full and partial load is the standard drying programme to which the information within the label is fiche relates, that this programme is usticible for drying normal west cotton laundry and that it is the most efficient programme is used as the programme is us	Supplier's Name or Trade Mark	BEKO	
Rated capacity in kg of cotton laundry for the standard cotton programme at full load  Air vented, condenser or gas fired  Energy efficiency class  Att-  Electric Only: The weighted Annual Energy Consumption "Energy consumption "X" kWh per year, based on 18d drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used.  Gas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh has per year, based on 18d drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used.  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (if applicable)  Energy consumption of the off-mode (if 0) and on the left-on mode (if 1) for the standard cotton programme at full load  The duration of the left-on mode if the appliance is equipped with a power management system  attraction that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label is fiche relates, that this programme is usticible for drying normal west cotton laundry and that it is the most efficient programme is usticible for drying normal west cotton laundry and that it is the most efficient programme time (if t) of the standard cotton programme at full and partial load is the standard drying programme to which the information within the label is fiche relates, that this programme is usticible for drying normal west cotton laundry and that it is the most efficient programme is used as the programme is us			
Electric Only: The weighted Annual Energy Consumption "Energy consumption" "Now Mark 194.4  Electric Only: The weighted Annual Energy Consumption "Energy consumption" "Now Mark 194.4  Electric Only: The weighted Annual Energy Consumption "Energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption "Energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption "Energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption "Energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (if applicable)  Energy consumption of the athadard cotton programme at full and partial load  Feduration of the athadard cotton programme at full and partial load  The duration of the left- on mode (if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load is the standard drying programme to which the information within the label & fiche relates, this programme is used to find the programme at full and partial load is the standard drying programme to which the information within the label & fiche relates, this programme is the standard cotton programme at full and partial load is the standard drying programme at full and partial load is the standard drying programme at full and partial load is the standard cotton programme at full and partial load is the standard cotton programme at full and partial load is the standard cotton programme at full and for all the programme	Model	BM3T3944W	
Electric Only: The weighted Annual Energy Consumption "Energy consumption" "Now Mark 194.4  Electric Only: The weighted Annual Energy Consumption "Energy consumption" "Now Mark 194.4  Electric Only: The weighted Annual Energy Consumption "Energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption "Energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption "Energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption "Energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (if applicable)  Energy consumption of the athadard cotton programme at full and partial load  Feduration of the athadard cotton programme at full and partial load  The duration of the left- on mode (if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load is the standard drying programme to which the information within the label & fiche relates, this programme is used to find the programme at full and partial load is the standard drying programme to which the information within the label & fiche relates, this programme is the standard cotton programme at full and partial load is the standard drying programme at full and partial load is the standard drying programme at full and partial load is the standard cotton programme at full and partial load is the standard cotton programme at full and partial load is the standard cotton programme at full and for all the programme			
Electric Only: The weighted Annual Energy Consumption "Energy consumption" "X* kWh per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption "X* kWh Gas per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the lowpower modes. Actual energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (If applicable)  Energy consumption of the standard cotton programme at full and partial load  Full: 1.61 Partial: 0.88  Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard  Cotton programme at full load  The duration of the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard drying programme to which the information within the label & fiche relates, this programme is lausable for drying normal wet cotton laundry and that it is the most efficient which the information within the label & fiche relates, this programme is lausable for drying normal wet cotton laundry and that it is the most efficient which the information within the label & fiche relates, this programme is lausable for drying normal wet cotton laundry and that it is the most efficient which the information within the label & fiche re	Rated capacity in kg of cotton laundry for the standard cotton programme at full load	9 KG	kg
