## Product fiche pursuant to Delegated Regulation (EU) no. 392/2012

Model Hoover H-Dry 250 HRE C9TBE Tumble Dryer  Rated capacity in kg of cotton laundry for the standard cotton programme at full load 9 kg  Air vented, condenser or gas fired Condenser  Energy efficiency class 8 Condenser  Energy efficiency class 8 Selectric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (if applicable)  Energy consumption of the lost-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (if applicable)  Energy consumption of the off-mode (P o) and on the left-on mode (P i) for the standard cotton programme at full and partial load  5.18 / 2.8 kWh  Power consumption of the off-mode (P o) and on the left-on mode (P i) for the standard cotton programme at full and partial load in the duration of the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within lauth data it is the most efficient programme in the most of energy consumption for cotton  The weighted programme at partial load (T dry) and the programme in the first standard cotton programme at partial load (T dry) and the programme in the first standard cotton programme at partial load (T dry) and the programme in the first standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a	Tumble Dryers	Answer	Units
Rated capacity in kg of cotton laundry for the standard cotton programme at full load  9 kg  Air vented, condenser or gas fired  Energy efficiency (class  Electric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (if applicable)  Energy consumption of the off-mode (P o) and on the left-on mode (P I) for the standard cotton programme at full load  5.18 / 2.8  KWh  Power consumption of the eff-mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying programme to which the linformation within the label & fiche relates, that this programme is suitable for drying programme to which the linformation within the label & fiche relates, that this programme is suitable for drying programme to which the linformation suitable and the suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme at full load (T dry 1/2) in minutes to the nearest minute  if the appliance is a condenser tumble dryer, the ordensation efficiency class - "Condensation efficiency class - "Standard cotton programme			
Air vented, condenser or gas fired  Energy efficiency class  B  Electric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (if applicable)  Energy consumption of the standard cotton programme at full and partial load  Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard cotton programme at full load  The duration of the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) an	Model	·	
Energy efficiency class  Electric Only: The weighted Annual Energy Consumption - "Energy consumption" "X" kWh per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (If applicable)  Energy consumption of the standard cotton programme at full and partial load  The duration of the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (Tt) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class - "Condensation efficiency class X on a scale from G (least efficient) to A (most effcient)"  If the appliance is a condenser tumble dryer, the condensation efficiency class - "Standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load and partial load"  Alto the programme at full and partial load"  Noise Leve	Rated capacity in kg of cotton laundry for the standard cotton programme at full load	9	kg
Electric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  Elecolabel (if applicable)  Energy consumption of the standard cotton programme at full and partial load  Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard cotton programme at full load  The duration of the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal west cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry) 1/2) in minutes to the nearest minute  Believed to the nearest minute as well as the programme time of the standard cotton programme at partial load (T dry) 1/2) in minutes to the nearest minute  Believed Full & partial load - 220 minutes minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full and partial load (T dry) 1/2) in minutes to the nearest minute  Believed Full & partial load - 138 min  Full load - 186 min Parcial load - 138 min  Full load - 186 min Parcial load - 138 min  Full load - 186 min	Air vented, condenser or gas fired	Condenser	
per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Gas Only: The weighted Annual Energy Consumption - "Energy consumption" X" kWh Gas per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (If applicable)  Energy consumption of the standard cotton programme at full and partial load  The duration of the left-on mode (P o) and on the left-on mode (P1) for the standard cotton programme at full load  The duration of the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at Tull load (T dry) and the programme time of the standard cotton programme at partial load (T dry) 2) in minutes to the nearest minute  Weighted Full & partial load - 138 min  Weighted Full & partial load - 138 min  Full load -	Energy efficiency class	В	
per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  Automatic  EU Ecolabel (if applicable)  Energy consumption of the standard cotton programme at full and partial load  5.18 / 2.8 kWh  Power consumption of the off-mode (P o) and on the left-on mode (P l) for the standard cotton programme at full load  The duration of the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme time of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry 1/2) in minutes to the nearest minute  Weighted Full & partial load - 220 minutes minute and rounded to the nearest minute as well as the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  Weighted Full & partial load - 220 minutes minutes and rounded to the nearest minute of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  Weighted Full & partial load - 138 min  Full load - 138 min  Weighted Full & partial load - 220 minutes minutes are condensed tumble dryer, the condensation efficiency class - "Condensation efficiency class - "Condensation efficiency class - "Condensation efficiency class - "Condensation efficiency class - "Standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cott	per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle	5.18 / 2.8	kWh
EU Ecolabel (If applicable)  Energy consumption of the standard cotton programme at full and partial load  5.18 / 2.8 kWh  Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard cotton programme at full load  7.040 / 0.75 W  The duration of the left-on mode if the appliance is equipped with a power management system  8.101 indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at partial load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  Weighted Full & partial load - 220 minutes minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  Weighted Full & partial load - 220 minutes minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  B  If the appliance is a condenser tumble dryer, the average condensation efficiency class - "Condensation efficiency class X on a scale from G (least efficient) to A (most effcient)"  If the appliance is a condenser tumble dryer, the average condensation efficiency class - "standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load  68 dB(A)	per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle		kWh
Energy consumption of the standard cotton programme at full and partial load  5.18 / 2.8  KWh  Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard cotton programme at full load  The duration of the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  B  If the appliance is a condenser tumble dryer, the condensation efficiency class -  "Condensation efficiency class X on a scale from G (least efficient) to A (most effcient)"  If the appliance is a condenser tumble dryer, the average condensation efficiency class -  "Standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load  68  dB(A)	Automatic tumble dryer or Non automatic tumble dryer	Automatic	
Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard cotton programme at full load  The duration of the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class - "Condensation efficiency class X on a scale from G (least efficient) to A (most effcient)"  If the appliance is a condenser tumble dryer, the average condensation efficiency class - "Standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load  O.40 / 0.75  W  Cotton  Weighted Full & partial load - 220 minutes min Full load - 186 min Parcial load - 138 min  B  If the appliance is a condenser tumble dryer, the average condensation efficiency class - "standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load	EU Ecolabel (If applicable)		
Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard cotton programme at full load  The duration of the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class - "Condensation efficiency class X on a scale from G (least efficient) to A (most effcient)"  If the appliance is a condenser tumble dryer, the average condensation efficiency class - "Standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load  O.40 / 0.75  W  Cotton  Weighted Full & partial load - 220 minutes min Full load - 186 min Parcial load - 138 min  B  If the appliance is a condenser tumble dryer, the average condensation efficiency class - "standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load			
The duration of the left-on mode if the appliance is equipped with a power management system  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class - "Condensation efficiency class X on a scale from G (least efficient) to A (most effcient)"  If the appliance is a condenser tumble dryer, the average condensation efficiency class - "standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load  AB(A)	Energy consumption of the standard cotton programme at full and partial load	5.18 / 2.8	kWh
Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class - "Condensation efficiency class X on a scale from G (least efficient) to A (most effcient)"  If the appliance is a condenser tumble dryer, the average condensation efficiency class - "Standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load  Meighted Full & partial load - 220 minutes min Full load - 186 min Parcial load - 138 min  Weighted Full & partial load - 220 minutes min Full load - 186 min Full load - 186 min Full load - 138 min  B  Meighted Full & partial load - 220 minutes min Full load - 186 min Full l		0.40 / 0.75	W
standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (Tt) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class - "Condensation efficiency class X on a scale from G (least efficient) to A (most effcient)"  If the appliance is a condenser tumble dryer, the average condensation efficiency class - "standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load  AB(A)		5	minutes
load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class - "Condensation efficiency class X on a scale from G (least efficient) to A (most effcient)"  If the appliance is a condenser tumble dryer, the average condensation efficiency class - "standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load  dB(A)	standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most	Cotton	
"Condensation efficiency class X on a scale from G (least efficient) to A (most effcient)"  If the appliance is a condenser tumble dryer, the average condensation efficiency class - "standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load  dB(A)	load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard	min Full load - 186 min	minutes
"standard cotton programme at full and partial load"  Noise Level (dB(A)) for the standard cotton programme at full load  68 dB(A)		В
