## Product fiche pursuant to Delegated Regulation (EU) no. 392/2012

Attended Annual Energy Consumption - "Energy consumption "X" kWh are year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the loft-on whee appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  Automatic  Automati	Tumble Dryers	Answer	Units
kated capacity in kg of cotton laundry for the standard cotton programme at full load  8 Kg  A+++  Reat Pump  A+++  Rectric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh  176 kWh/year  Rer year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Sas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas serve year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  CU Ecolabel (If applicable)  Full load: 1,39 kWh  Half load: 0,81 kWh  Power consumption of the standard cotton programme at full and partial load  Full indication that the "standard cotton programme" used at full and partial load is the tandard drying programme to which the information within the label & fiche relates, that his programme to which the information within the label & fiche relates, that his programme to which the information within the label & fiche relates, that his programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full load (T dry 1/2:130 min T tr) and min terms of energy consumption for cotton  Full Ecolabel (T dry 1/2:130 min T tr) and min terms of energy consumption for cotton  Full standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at pull load (T dry) and the programme time of th	Supplier's Name or Trade Mark		SHARP
kated capacity in kg of cotton laundry for the standard cotton programme at full load  8 Kg  A+++  Reat Pump  A+++  Rectric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh  176 kWh/year  Rer year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. At++  Siectric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh per year, based on 150 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Sas Only: The weighted Annual Energy Consumption - "Energy consumption per cycle will depend on how the appliance is used"  Sas Only: The weighted Annual Energy Consumption - "Energy consumption per cycle will depend on how the appliance is used"	Model		KD-NHB8S6GW3-EN
At++  Siectric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh per year, based on 150 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Sas Only: The weighted Annual Energy Consumption - "Energy consumption per cycle will depend on how the appliance is used"  Sas Only: The weighted Annual Energy Consumption - "Energy consumption per cycle will depend on how the appliance is used"			
At++  Siectric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh per year, based on 150 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Sas Only: The weighted Annual Energy Consumption - "Energy consumption per cycle will depend on how the appliance is used"  Sas Only: The weighted Annual Energy Consumption - "Energy consumption per cycle will depend on how the appliance is used"	Date described to the Control of		0.14
A+++  Intergy efficiency class  A+++  Intergy ensumption "X" kWh  Intergy ear, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used!  Sas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas been ever year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used!  Automatic tumble dryer or Non automatic tumble dryer  Automatic  Eu Ecolabel (if applicable)  Intergy consumption of the standard cotton programme at full and partial load  Full load: 1,39 kWh  Half load: 0,81 kWh  Power consumption of the off-mode (P o) and on the left-on mode (P i) for the standard  Off mode: 0,5 W  Left on mode: 1,0 W  The duration of the left-on mode if the appliance is equipped with a power management yetem  Indication that the "standard cotton programme" used at full and partial load is the continuous suitable for drying normal west cotton laundry and that it is the most efficient programme to which the information within the label & fiche relates, that his programme is suitable for drying normal west cotton laundry and that it is the most efficient programme time (T t) of the standard cotton programme at full and partial load is the continuous suitable for drying normal west cotton laundry and that it is the most efficient programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) 1/2 in minutes to the nearest minute  In the appliance is a condenser tumble dryer, the condensation efficiency class -	Rated capacity in kg of cotton laundry for the standard cotton programme at full load		8 Kg
A+++  Intergy efficiency class  A+++  Intergy ensumption "X" kWh  Intergy ear, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used!  Sas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas been ever year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used!  Automatic tumble dryer or Non automatic tumble dryer  Automatic  Eu Ecolabel (if applicable)  Intergy consumption of the standard cotton programme at full and partial load  Full load: 1,39 kWh  Half load: 0,81 kWh  Power consumption of the off-mode (P o) and on the left-on mode (P i) for the standard  Off mode: 0,5 W  Left on mode: 1,0 W  The duration of the left-on mode if the appliance is equipped with a power management yetem  Indication that the "standard cotton programme" used at full and partial load is the continuous suitable for drying normal west cotton laundry and that it is the most efficient programme to which the information within the label & fiche relates, that his programme is suitable for drying normal west cotton laundry and that it is the most efficient programme time (T t) of the standard cotton programme at full and partial load is the continuous suitable for drying normal west cotton laundry and that it is the most efficient programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) 1/2 in minutes to the nearest minute  In the appliance is a condenser tumble dryer, the condensation efficiency class -			
A+++  Intergy efficiency class  A+++  Intergy ensumption "X" kWh  Intergy ear, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used!  Sas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas been ever year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used!  Automatic tumble dryer or Non automatic tumble dryer  Automatic  Eu Ecolabel (if applicable)  Intergy consumption of the standard cotton programme at full and partial load  Full load: 1,39 kWh  Half load: 0,81 kWh  Power consumption of the off-mode (P o) and on the left-on mode (P i) for the standard  Off mode: 0,5 W  Left on mode: 1,0 W  The duration of the left-on mode if the appliance is equipped with a power management yetem  Indication that the "standard cotton programme" used at full and partial load is the continuous suitable for drying normal west cotton laundry and that it is the most efficient programme to which the information within the label & fiche relates, that his programme is suitable for drying normal west cotton laundry and that it is the most efficient programme time (T t) of the standard cotton programme at full and partial load is the continuous suitable for drying normal west cotton laundry and that it is the most efficient programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) 1/2 in minutes to the nearest minute  In the appliance is a condenser tumble dryer, the condensation efficiency class -	Air vented condenser or gas fired		Heat Pump
Electric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh  Per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  - "Bas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas  Per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic dryer have dryer dryer  - "Automatic dryer dryer  - "Automatic dryer dryer  - "Automatic dryer have dryer dryer  - "Automatic dryer have dryer dryer dryer dryer dryer have dryer have dryer have dryer have dryer with dryer dryer tumble dryer dryer dryer have dryer dryer dryer dryer have dryer dry	, in related consenses of gas mea		ricae i amp
Electric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh  Per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  - "Bas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas  Per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic tumble dryer or Non automatic tumble dryer  - "Automatic dryer have dryer dryer  - "Automatic dryer dryer  - "Automatic dryer dryer  - "Automatic dryer have dryer dryer  - "Automatic dryer have dryer dryer dryer dryer dryer have dryer have dryer have dryer have dryer with dryer dryer tumble dryer dryer dryer have dryer dryer dryer dryer have dryer dry	Energy efficiency class		A+++
per year, based on 160 drying cycles of the standard cotton programme at full and partial oad, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"    Sas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas her year, based on 160 drying cycles of the standard cotton programme at full and partial oad, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"    Automatic tumble dryer or Non automatic tumble dryer	G, ,		
and, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used."  Sas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas ber year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used."  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  Full fload: 1,39 kWh Half load: 1,39 kWh Half load: 1,39 kWh Half load: 0,81 kWh  Power consumption of the standard cotton programme at full and partial load  Power consumption of the off-mode (P o) and on the left-on mode (P l) for the standard cotton programme at full load  Power consumption of the left-on mode if the appliance is equipped with a power management  And the duration of the left-on mode if the appliance is equipped with a power management  NA  Stream of the left-on mode if the appliance is equipped with a power management in the standard cotton programme used at full and partial load is the tandard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the tandard cotton programme at full load (T dry) 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -	Electric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh		176 kWh/year
Sas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas ber year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (if applicable)	per year, based on 160 drying cycles of the standard cotton programme at full and partial		
Fas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas ber year, based on 160 drying cycles of the standard cotton programme at full and partial oad, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble (If applicable)  Inergy consumption of the standard cotton programme at full and partial load  Full load: 1,39 kWh Half load: 0,81 kWh  Prower consumption of the off-mode (P o) and on the left-on mode (P I) for the standard  Off mode: 0,5 W Left on mode: 1,0 W  The duration of the left-on mode if the appliance is equipped with a power management system  NA  Which duration of the left-on mode if the appliance is equipped with a power management and drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial oad in minutes and rounded to the nearest minute as well as the programme time of the tandard cotton programme at full load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -	load, and the consumption of the low -power modes. Actual energy consumption per cycle		
the year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  Automatic  Eu Ecolabel (If applicable)  Inergy consumption of the standard cotton programme at full and partial load  Full load: 1,39 kWh Half load: 0,81 kWh  Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard  Off mode: 0,5 W Left on mode: 1,0 W  The duration of the left-on mode if the appliance is equipped with a power management yestem  NA  Automatic  Off mode: 0,5 W Left on mode: 1,0 W  The duration of the left-on mode if the appliance is equipped with a power management yestem  NA  Cotton Cupboard Dry  Automatic  In duration of the left-on mode if the appliance is equipped with a power management yestem  NA  Cotton Cupboard Dry  The weighted programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the tandard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full loa	will depend on how the appliance is used"		
the year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low -power modes. Actual energy consumption per cycle will depend on how the appliance is used"  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  Automatic  Eu Ecolabel (If applicable)  Inergy consumption of the standard cotton programme at full and partial load  Full load: 1,39 kWh Half load: 0,81 kWh  Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard  Off mode: 0,5 W Left on mode: 1,0 W  The duration of the left-on mode if the appliance is equipped with a power management yestem  NA  Automatic  Off mode: 0,5 W Left on mode: 1,0 W  The duration of the left-on mode if the appliance is equipped with a power management yestem  NA  Cotton Cupboard Dry  Automatic  In duration of the left-on mode if the appliance is equipped with a power management yestem  NA  Cotton Cupboard Dry  The weighted programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the tandard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at full loa			
Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (If applicable)  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  Automatic  EU Ecolabel (If applicable)  Automatic  Full load: 1,39 kWh Half load: 0,81 kWh  Alf load: 0,81 kWh  A	Gas Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh Gas		-
Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  Automatic tumble dryer or Non automatic tumble dryer  Full load: 1,39 kWh Half load: 0,81 kWh  Prower consumption of the standard cotton programme at full and partial load  Off mode: 0,5 W Left on mode: 1,0 W  The duration of the left-on mode if the appliance is equipped with a power management yestem  NA  The duration of the left-on mode if the appliance is equipped with a power management yestem  Indication that the "standard cotton programme" used at full and partial load is the tandard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most ifficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial of the tandard cotton programme at full load (T dry 1/2) in minutes as well as the programme time of the tandard cotton programme at full load (T dry 1/2) in minutes to the nearest minute  In the appliance is a condenser tumble dryer, the condensation efficiency class -	per year, based on 160 drying cycles of the standard cotton programme at full and partial		
Automatic tumble dryer or Non automatic tumble dryer  EU Ecolabel (If applicable)  Energy consumption of the standard cotton programme at full and partial load  Full load: 1,39 kWh Half load: 0,81 kWh  Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard  Cotton programme at full load  Che duration of the left-on mode if the appliance is equipped with a power management system  NA  Cotton that the "standard cotton programme" used at full and partial load is the tandard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the tandard cotton programme at full load (T dry 1/2) in minutes to the nearest minute  Ethe appliance is a condenser tumble dryer, the condensation efficiency class -  B			
EU Ecolabel (If applicable)  Full load: 1,39 kWh Half load: 0,81 kWh  Prower consumption of the standard cotton programme at full and partial load  Off mode: 0,5 W Left on mode: 1,0 W  The duration of the left-on mode if the appliance is equipped with a power management system  NA  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -	will depend on how the appliance is used"		
EU Ecolabel (If applicable)  Full load: 1,39 kWh Half load: 0,81 kWh  Prower consumption of the standard cotton programme at full and partial load  Off mode: 0,5 W Left on mode: 1,0 W  The duration of the left-on mode if the appliance is equipped with a power management system  NA  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -			
EU Ecolabel (If applicable)  Full load: 1,39 kWh Half load: 0,81 kWh  Prower consumption of the standard cotton programme at full and partial load  Off mode: 0,5 W Left on mode: 1,0 W  The duration of the left-on mode if the appliance is equipped with a power management system  NA  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -	A transfer oblight and transfer oblight a		A 1
Full load: 1,39 kWh Half load: 0,81 kWh  Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard cotton programme at full load  Off mode: 0,5 W Left on mode: 1,0 W  The duration of the left-on mode if the appliance is equipped with a power management system  NA  Indication that the "standard cotton programme" used at full and partial load is the tandard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the tandard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -  B	Automatic tumble dryer or Non automatic tumble dryer		Automatic
Full load: 1,39 kWh Half load: 0,81 kWh  Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard cotton programme at full load  Off mode: 0,5 W Left on mode: 1,0 W  The duration of the left-on mode if the appliance is equipped with a power management system  NA  Indication that the "standard cotton programme" used at full and partial load is the tandard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the tandard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -  B	ELL Ecolobal (If applicable)		
Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard  Cotton programme at full load  Che duration of the left-on mode if the appliance is equipped with a power management system  NA  Cotton Cupboard Dry  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the tandard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -  B	EO Ecolabel (II applicable)		-
Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard  Cotton programme at full load  Che duration of the left-on mode if the appliance is equipped with a power management system  NA  Cotton Cupboard Dry  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the tandard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -  B	Energy consumption of the standard cotton programme at full and partial load		Full load : 1.39 kWh
Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard cotton programme at full load  The duration of the left-on mode if the appliance is equipped with a power management system  NA  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -	Energy consumption of the standard cotton programme at run and partial load		
Left on mode: 1,0 W  The duration of the left-on mode if the appliance is equipped with a power management system  NA  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -			Hall load : 0,01 kvvii
Left on mode: 1,0 W  The duration of the left-on mode if the appliance is equipped with a power management system  NA  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -			
Left on mode: 1,0 W  The duration of the left-on mode if the appliance is equipped with a power management system  NA  Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -	Power consumption of the off-mode (P o) and on the left-on mode (P I) for the standard		Off mode : 0,5 W
Andication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -	cotton programme at full load		Left on mode : 1,0 W
Andication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -			
Andication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial load in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -			
Indication that the "standard cotton programme" used at full and partial load is the standard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial oad in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -	The duration of the left-on mode if the appliance is equipped with a power management		NA
trandard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial oad in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -	system		
trandard drying programme to which the information within the label & fiche relates, that his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial oad in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -			
his programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton  The weighted programme time (T t) of the standard cotton programme at full and partial coad in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -			Cotton Cupboard Dry
The weighted programme time (T t) of the standard cotton programme at full and partial oad in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -	, 51 5		
The weighted programme time (T t) of the standard cotton programme at full and partial oad in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -			
oad in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -	efficient programme in terms of energy consumption for cotton		
oad in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -			
oad in minutes and rounded to the nearest minute as well as the programme time of the standard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -	The weighted programme time (Tit) of the standard cotton programme at full and partial		T dry: 179 min
tandard cotton programme at full load (T dry) and the programme time of the standard cotton programme at partial load (T dry 1/2) in minutes to the nearest minute  If the appliance is a condenser tumble dryer, the condensation efficiency class -			
f the appliance is a condenser tumble dryer, the condensation efficiency class -			
f the appliance is a condenser tumble dryer, the condensation efficiency class -			10. 140 11111
Condensation efficiency class X on a scale from G (least efficient) to A (most effcient)"	If the appliance is a condenser tumble dryer, the condensation efficiency class -		В
	"Condensation efficiency class X on a scale from G (least efficient) to A (most effcient)"		
	If the appliance is a condenser tumble dryer, the average condensation efficiency class -		81%
standard cotton programme at full and partial load"	"standard cotton programme at full and partial load"		
Noise Level (dB(A)) for the standard cotton programme at full load 65	Noise Level (dB(A)) for the standard cotton programme at full load		65
