Product fiche pursuant to Delegated Regulation (EU) no. 392/2012

Supplier's Name or Trade Mark Model FOV709W Rated capacity in kg of cotton laundry for the standard cotton programme at full load Air vented, condenser or gas fired Condenser A++ Electric Only: The weighted Annual Energy Consumption - "Energy consumption "X" kWh per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used." Automatic Humble dryer or Non automatic tumble dryer EU Ecolabel (if applicable) Energy consumption of the ton an automatic tumble dryer Eu Ecolabel (if applicable) Energy consumption of the off-mode (P o) and on the left-on mode (P I) for the standard cotton programme at full and partial load. Alto the duration of the left-on mode if the appliance is equipped with a power management system Indication that the "standard cotton programme" used at full and partial load in hinutes as suitable for drying cycles in standard cotton programme at full and partial load in hinutes as suitable for drying or programme at full and partial load in the theory of the standard cotton programme at full and partial load in the standard cotton programme at full and partial load is the standard drying programme to which the information within the label & fiche relates, that this programme is suitable for drying normal wet cotton laundry and that it is the most efficient programme in terms of energy consumption for cotton The weighted programme at merit in the nearest minute as well as the programme at full and partial load in minutes and rounded to the nearest minute as well as the programme at full and partial load in minutes and rounded to the nearest minute as well as the programme at full and partial load in minutes and rounded to the nearest minute as well as the programme at full and partial load in minutes and rounded to the nearest minute as well as the programme at full and partial load in minutes and rounded to the nearest minute as w	Tumble Dryers	Answer	Units
Model Rated capacity in kg of cotton laundry for the standard cotton programme at full load Air vented, condenser or gas fired Condenser At+ Electric Only: The weighted Annual Energy Consumption "Energy consumption "X" kWh per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used" Gas Only: The weighted Annual Energy Consumption - "Energy consumption per cycle will depend on how the appliance is used" Gas Only: The weighted Annual Energy Consumption - "Energy consumption per cycle will depend on how the appliance is used" Automatic tumble dryer or Non automatic tumble dryer EU Ecolabel (if applicable) Energy consumption of the standard cotton programme at full and partial load 1.91 kWh (Full Load) 1.03 kWh (Partial L	·
